

Gina Fiandaca
Commissioner
**Boston Transportation
Department**

Boston Transportation Department's Commissioner Fiandaca is responsible for overseeing the city's transportation planning, traffic management and engineering, roadway signage, and parking enforcement. The department sees its missions as two-fold: to advance public and transportation safety, and to manage the Boston's street network to best and fairly serve all users. Fiandaca's hands-on experience in innovative transportation policy includes working closely with the Mayor's Office of New Urban Mechanics on the newly launched ParkBoston app, a mobile phone application that allows users to pay their meter from a smartphone.
